CAPABILITY STATEMENT

Hawkeye Innovation is a veteran-owned small business contract manufacturing company that provides comprehensive, high-quality precision manufacturing and supply chain solutions. We specialize in CNC milling, turning, tooling, tumbling, grinding, welding, prototyping, mechanical, PCB assembly and engineering services.

With a commitment to excellence and continuous improvement, we deliver cutting-edge, cost-effective solutions for industries ranging from aerospace and defense to automotive and electronics.

Count on us to:

- Design and/or build anything for anyone inside our wide set of capabilities
- Manufacture custom-designed panels, cables, harnesses and precision-machined parts to customer specifications, ranging from low-volume, custom assemblies to high-volume commercial products
- Offer the precision required to exceed the most stringent requirements

DIFFERENTIATORS

- More than 35 years of design and manufacturing experience
- A dedicated team handling all engineering and design and assembly assistance
- Fully equipped assembly lines offering increased throughput
- Direct access to supported products
- One-stop sourcing solutions
- Strict adherence to government-specific shipping and handling requirements

PAST PERFORMANCE

- Successful delivery of 167 orders and 14,801 units on time since 2019
- \$7 million in sales to DLA since 2019
- 95 direct contracts and 72 third-party contracts including:
 - o Sub-tier support to Pratt & Whitney
 - o Supplier to Lockheed Martin
 - o DLA Land & Maritime
 - o DLA Aviation
 - o United States Coast Guard
 - o United States Navy
